RM/Sotheby's Paris January 31, 2024

250 EUROPA GT, S/N 0435 GT (1956). Metallic gray with black interior. Estimate €1 million to €1.4 million. Built by Pinin Farina prior to production transferring to Boano. Sold to first owner, Signora Iris Cantelli, wife of celebrated conductor, Guido Cantelli, in April 1956. Following Mr. Cantelli's death, and in 1957, it was bought by a Parma-based industrialist. In 1960 the Ferrari was exported to Switzerland, where it was later owned by a Mr. Messerli, in whose care the car was involved in a fatal accident. It was subsequently rebuilt with the engine, rear axle, disc brakes, and wheels from 250 GT/L chassis S/N 5135 GT. The Ferrari was then sold, accompanied by its original engine and gearbox, to Jean-Pierre Oberson, a former mechanic of Jo Siffert based in Bulle, Switzerland. Oberson commissioned a complete restoration during which the car was reunited with its original powertrain and refinished in red with a black interior. The completed car was displayed at Club Ferrari Suisse's anniversary meeting in Montreux, Switzerland, in April 1990. The Ferrari was sold to Tiziano Carugati in 2000, and in 2006 it was bought by a UK-based collector who commissioned a full body restoration. By March 2008 the restoration was finished in its current metallic gray with black configuration. Sold to a Belgian enthusiast it remained in their care until 2015, when it was acquired at auction by the consigning seller, and by December of that year had been imported to their native Germany. While in the care of the current owner it has been shown regularly, and participated in the Mille Miglia Storica no fewer than five times between 2016 and 2022. In 2018, the car was reunited with its original rear axle. Lot 152. Sold for €916,250.

250 GT SWB BERLINETTA ALLOY, S/N 1773 GT (1960). Giallo with Pelle Verde interior. €9 million to €11 million. One of 45 alloy Competizione examples built in 1960. Completed on 16 March 1960, for the 12 Hours of Sebring. Later sold to Bob Grossman who competed it at Bahamas Speed Week. In early 1961, it was sold to its third owner, Bob Hathaway, who raced it regularly throughout 1961 and early 1962. Hathaway sold the SWB back to Grossman, who immediately traded it to friend Walt Luftman. After Luftman, it had a further six owners until 1987, when it joined the van der Velden family. The car passed through the hands of three further owners, before being purchased by Bruce McCaw in 1999. Kept by him for a little over two years, it then entered the care of Ervin Lyon, before it joined the stable of John Romano. In 2014, it became part of the Pinnacle Portfolio. It was sent to Motion Products

Inc., to be restored. In 2023, it was Classiche certified. The factory confirmed it retains its original matching-numbers chassis, engine, and rear axle, while the gearbox fitted is a correct aluminum ribbed-casing competition unit. Lot 161. Sold for €10.2 million.

275 GTB/6C, S/N 8259 (1966). Grigio with Pelle Grigia leather. Estimate €2.7 million to €3.2 million. This 6C alloy berlinetta was completed on 7 February 1966. Delivered to Garage Imperia Martigny in Lausanne, Switzerland. Originally Celeste Chiaro over a Blu interior with matching carpets first owned by a Mr. Bacic. By August 1966 it had been sold to Zurich, and by 1968 it passed to René Herzog. By May of the following year it had covered almost 35,000 km. In 1970 it was refinished in matte black with gold wheels. Its next owner repainted the Ferrari in red. In 1977 it found a home in the Netherlands. Sold again in 1982, and four years later the car entered the long-term care of a Belgian enthusiast. In 2004, the car had been exported to the UK and by the following year it had found a new home in Belgium. By 2006, it had found a new owner, having recently undergone restoration work. The alloy body was restored and refinished in Grigio. A mechanical overhaul was carried out during which the original gearbox was replaced with a unit of the correct type. A full complement of restoration photographs is on file. In December 2006 it received Classiche certification. It would remain in the care of its then-owner until 2022. Knock Off Spinner Removal Tool Kits (no need for a hammer)

These tools fit three-eared and two eared Classic **Ferrari, Maserati, Lamborghini**, and other cars that utilize 42 size **Borrani** spinners.

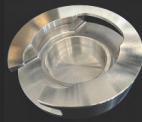

Both three-eared and two-eared knock off spinner tool kits contain a polished Aluminum tool that is leather wrapped to protect any metal-to-metal contact, a plastic insert to protect the face of the spinner. Each tool is engraved with UNDO directional arrows for both left & right sides, a 1/4" high impact socket with a 1/2" square drive, to fit a breaker bar or torque wrench, a wheel chock to block the wheels on the floor during tire changes, and an embossed storage bag to keep the knock off tool kit in the car. There is an optional aluminum storage case, securing the Knock-off tool kit with the car.

Three eared tool.

Two eared tool

How it works

The tools are made using CNC technologies, (shown without leather). Each tool has the spinner's ear angles milled into the tool's side walls. The tool has a bridge to hang the tool on the spinner's ear that are facing upward, then push the tool onto the other ear(s) of the spinner and turn. To use the wheel chock, jack the wheel up just enough so the tire just turns. Place the chock on one side of the tire to UNDO and move the chock to the other side of the tire to tighten. Once the jack is lowered, your spinner will be perfectly seated to the wheel. **Its that simple!**

250 GT LWB BERLINETTA RE-CREATION, S/N 1657 GT (1959). Dark red. Originally a PF coupe, imported to the UK in a disassembled state without a powertrain in the late 1980s. Swedish owner commissioned Carrozzeria Auto Sport of Bastiglia, Italy, to construct a brand new TDF chassis, rather than modifying the PF chassis. Completed in 1996, the re-creation is powered by a 3.0-liter inside-plug Colombo V12 with triple Weber carburetors topped by velocity stacks and an air pan. Four-speed manual transmission with overdrive and 16" Borrani wire wheels, custom-made TdF-style seats trimmed in tan leather. Power-assisted 360 mm drum brakes, installed by Patrick Ottis in Berkeley, California, in 2003. After spending time in Japan, the car was acquired by the seller in August 2021, and subsequent work has included major service, detailing of the red paint, installation of black carpeting, cosmetic refurbishment of engine ancillaries, and a rebuild of the electric fuel pump. Documents from 1987, images from the conversion in the 1990s, invoices from work by Ottis. **\$1,050,000.** 4821

The Ferrari Market Letter is totally independent and is not affiliated with Ferrari S.p.A., Ferrari North America, any Ferrari club or other Ferrari venture. It is published in print AND posted online, approximately once every two weeks (but definitely 24 times a year)!

Classified advertisements from current subscribers offering Ferraris for sale are published free of charge, appear in six consecutive issues unless cancelled earlier, and are then automatically cancelled unless renewed by the advertiser. Ferrari-related memorabilia, miscellaneous, wanted, etc., ads are accepted and published free of charge with certain additional restrictions (i.e. only one ad per category). Free ads are subjected to editing to conserve space. All classified ads must be Ferrari related.

Classified ads from non-subscribers and all display advertisements are published only on a prepaid basis. Please inquire for rates and specifications.

We reserve the right to edit all ads for accuracy and to suit our format. We reserve the right to refuse any ads which do not meet our requirements. We are not responsible for errors in fact or content.

Unsolicited materials for publication consideration are welcome, and will be returned if requested. Material accepted for publication is subject to revision and editing to meet our requirements. 246 DINO BUMPERS: U.S. VERSION - FOUR BRAND NEW, still in factory packaging ... never opened. These bumpers have never been used. In 1979, at the age of 19, I bought my first Ferrari in Modena, Italy. Knowing that I would have to bring the car up to DOT and EPA specs, I went to the Ferrari Factory in Maranello Italy and bought four extra bumpers at the factory (because I was afraid I might screw things up when modifying the existing European version bumpers while attempting to meet DOT specs). The bumpers are STILL in the factory plastic and tape, and they have never been touched by human hand since the summer of 1979. \$6,000 USD OBO.
